ESL PRO SYSTEMS

Introduction to ESL Pro Systems

ESL Pro Systems, a leading educational software developer and distributor, provides students and educators with high quality software created for learning the English language.

ESL Pro Systems began its focus on developing core technologies for English language instruction in 1996. The company underwent eight years of educational research for the development of its multimedia instructional materials. As a result, a team of English educators, linguists, artists, and programmers has developed a series of learning resources designed to bring hours of effective instruction for all language levels. Today, the company's mission remains to provide affordable, high quality educational resources for English language instruction.

ESL Pro Systems' suite of cutting-edge products has been designed for English learners at all levels of proficiency and every age group. The broad and comprehensive collection of titles provides a solution for anyone seeking to improve their English language ability. In addition, ESL Pro Systems provides excellent products for TOEFL® iBT/CBT exam and TOEIC® exam preparation. Our company has helped over 500,000 people improve their English, with award-winning software that is the best solution for learning English language skills for education, business or travel.

Positioning Information

In an era when the focus on communication skills has never been greater, ESL Pro Systems has developed the best multimedia English language instruction system available at any price. The potential market for English language instruction is growing at an exponential rate and has been doing so over the past five years. New

citizens and immigrants in English-speaking countries, and citizens of other countries wanting to emigrate to or do business with English-speaking countries, are just a few of the many potential users of ESL Pro Systems' titles. According to the 2000 US census, nearly 45 million Americans speak a language other than English at home and 43% of these individuals speak English less than "very well". It is interesting to note that the current population of Spanish-speaking immigrants living in the United States is greater than the entire population of Canada.

ESL Pro Systems' suite of products appeals to a wide market. Anyone from students to professionals, children to adults, can benefit from improved English language skills. The software is also an excellent resource for teachers and tutors to enhance their English/ESL curriculum. The pronunciation software teaches the user to speak clearly, enunciating each word. This software will also benefit public speakers, actors or anyone with speech impediments.

Quick Facts

- It is estimated that the annual global expenditure for ESL ranges from \$75-100B (US). (CanFuture Report, 1998)
- 80% of the world's electronically stored information is in English. (British Council, 2003)
- It is estimated that 1 billion people are studying English. (British Council, 2003)

Testimonials

"It is with great pleasure that I write you this letter in support of ESL PRO. We installed ESL PRO at our elementary schools where we have E.S.L. programs. Our students (grades K-6), teachers, teacher associates, and parents are currently using the program. They consistently report high student achievement and interest. ESL PRO is motivating for our students to use and easy for our teachers to monitor students progress. Once again, thank you for providing our school district with a great learning tool. I'll keep you posted on our progress!"

Sincerely,

Stuart Yager

Superintendent of Fort Madison Community School District
Fort Madison, Iowa, United States

"It is a very good idea for ESL Pro Systems to introduce TOEFL® preparation tests, as they provide a challenge and practice for the learner to attempt the questions after learning all the skills of English in ESL PRO. The format is indeed related to that of the actual TOEFL® and this should allow those who wish to sit for the TOEFL® some practice."

Dr. Eric T.K. Wong
Head of the Language & Learning
Support Unit
Monash University, Malaysia

"I am writing to express Education Networks of America's (ENA) satisfaction with ESL Pro Systems Ltd.'s products.

Since April 2000, we have provided our users with one-click access to a number of the ESL games produced by ESL Pro Systems Ltd. Feedback from teachers has been unanimously positive. They have reported that students (both ESL students as well as native speakers) are engaged and entertained by the games. Most importantly, they feel that playing these games improves students' English language skills.

Our business relies on the end-user of our service (students, teachers and administrators) accessing web-based resources that are educationally sound and useful. The ESL Pro Systems Ltd. ESL games have been an unqualified success for us on both accounts.

ENA has an aggressive growth strategy that should dramatically increase our national footprint during the coming year as we move into additional states and incorporate thousands of more computers into our network. We anticipate that our future customers will appreciate ESL Pro Systems' products as much as our current customers do, and hence our relationship with ESL Pro Systems Ltd. will evolve and expand during the coming years."

Sincerely,

Steven M. Guttentag, Ph.D.

Chief Educational Officer
Education Networks of America

TOEFL® iBT Test Resources

The TOEFL® test is undergoing some important changes. In order to meet the challenge of providing a more comprehensive assessment of an applicant's ability to understand and use the English language in an academic environment, a "next generation" TOEFL® (also called TOEFL® Internet-based test-IBT) has been developed to assess all four language skills - listening, reading, writing, and speaking. While some questions in each of the sections will be similar to questions found on the current computer-based test (CBT), others will be new. Thus, the scoring system will change as well. Each of the four language skills will now be reported on a scale of 0 to 30. There will also be a total score. In addition, the TOEFL® iBT Test will no longer have any computer-adaptive sections; it will be a linear assessment test covering a full range of levels of question difficulty. Note taking will be allowed on the TOEFL® iBT Test in order to better reflect real-life academic situations. The new test will take approximately four hours to finish. In September 2005, the TOEFL® iBT Test will start to be administered via the [Internet at secure, ETS®-approved test centers.](#)

New Practice Tests 1,2,3 for the TOEFL® iBT Test

(Ages 14 - Adult)

Take these full-length practice TOEFL® tests to improve your chance of getting a high score on the TOEFL® Internet-based test (IBT). Our practice tests give you a score for the Listening and Reading sections, and provide sample responses for the Speaking and Writing sections. A helpful explanatory answer key for the Listening and Reading sections is included. All practice tests have been written by certified ESL instructors and extensively tested by prospective TOEFL® iBT Test examinees.

The Practice Tests for the TOEFL® iBT Test cover the following sections:

Listening Section:

In the Listening section, you will answer a variety of questions about conversations and lectures. You will receive a score at the end of the section.

Writing Section:

In the Writing section of an actual TOEFL® iBT Test, you will be asked to answer two questions. The first question asks you to consolidate the information you hear in a lecture or conversation and a passage you will read. The second asks you to write an essay about a topic based on your own experience and opinion. In our practice tests, you will not receive a score but will instead be able to read sample questions and responses written by actual TOEFL® test students. A score is included for each response.

Reading Section:

In this section of the test you will answer questions about several reading passages. You will receive a score at the end of the section.

Speaking Section:

In the Speaking Section of an actual TOEFL® iBT Test, you will be asked to answer six questions. Some of the questions ask you to speak about topics based on your own opinion. Others ask you to talk about lectures you have heard and/or passages you have read. In our practice tests, you will not receive a score for each question but will instead be able to listen to sample responses with a corresponding score.
